- ▶ Boost hydration and elasticity
- ▶ Help skin antioxidation and slow down aging

THIS PRODUCT IS AMAZING!

9 Notable Components

- RICE FLOUR**
Made from organic rice flour. It gently lifts up the skin and prevents skin problems. It also has wrinkle-improving and whitening effects.
- GARLIC AND GINGER**
Fermented extract of garlic and ginger (G2). Our patented technology is used to enzymatically ferment aged extracts. Help improve blood circulation, prevent viruses, strengthen immunity, calm inflammation, Remove active oxygen.
- SUNFLOWER SEED OIL**
Sunflower seed oil is a natural moisturizer with antioxidant and anti-inflammatory properties.
- HEMP SEED OIL**
Hemp seed oil contains essential fatty acids omega-3 and omega-6 that cannot be produced in the body. This cream contains many kinds of vitamins.
- CERAMIDE COMPLEX**
Ceramides are essential lipids that fill the cells on the skin surface, creating a barrier. Prevents moisture from evaporating and harmful substances from entering. It can defend itself.
- 8 HYALURONIC ACIDS**
Sodium Acetylated Hyaluronate, Sodium Hyaluronate (low molecular weight), Sodium Hyaluronate (polymeric), Sodium Hyaluronate Crosspolymer, Hydroxypropyltrimonium Hyaluronate, Hydrolyzed Glycosaminoglycans, Hyaluronic acid.
Hyaluronic acid is a powerful moisturizer that deeply penetrates the skin to lock in moisture and elasticity. This helps to prevent dryness and keep skin looking and feeling its best.
- PEPTIDE 5 COMPLEX**
rh-Oligopeptide-1, sh-Polypeptide-1, sh-Polypeptide-3, acetylhexapeptide-8, tripeptide-1 copper.
Peptides are proteins that make up the skin. They can be broken down into smaller, more permeable sizes for easier absorption. Peptides can help to remove damaged skin components and promote skin regeneration.
- 7 TYPES OF COLLAGEN**
atelocollagen, desamido collagen, hydrolyzed collagen, water-soluble collagen, collagen, collagen amino acid, pro-collagen.
Collagen, which is also a component of the skin, penetrates deep into the skin and improves skin elasticity. It also provides moisture to protect the skin.
- GRAPHENE**
Graphene is a material made up of carbon atoms that are grown in a hexagonal lattice with cosmetic ingredients and formed into a specific shape. It has the effect of penetrating deep into the skin.

3 EASY STEPS (HOW TO USE)

- Take an appropriate amount of cream (about 5ml) and apply it evenly to the entire face, avoiding the eyes.
- Wait for 20-30 minutes without moving your facial muscles.
- Rinse thoroughly with luke warm water.

USAGE NOTES

- Please stop using cosmetics when they are not suitable for your skin, i.e., in the following situations. If you continue to use cosmetics, it may worsen the symptoms, so consult a dermatologist. (1) If you experience redness, swelling, itchiness or irritation during use (2) If direct sunlight hits your skin and the above abnormalities
- Wash away immediately.
- Please avoid the area around your eyes.
- Please be careful as exposure to direct sunlight may cause rashes or spots.
